

Continuing Education Activity Summary: **Epoxy & Urethane Flooring for Slab on Grade Concrete**

Provider:	Tnemec Company, Inc.	Length:	1 Hour
Program #:	TNE004	Credit:	1.0 AIA/CES LU (HSW) / 1.0 PDH
Program:	Epoxy & Urethane Flooring for Slab on Grade Concrete	Method:	Live Instruction

Program Description: Epoxy and urethane flooring continues to gain popularity in the commercial, institutional and industrial markets due to its durability, versatility and the fact that it can be installed seamlessly, making it very cleanable. Participants will learn about the importance of epoxy and urethane floor systems through discussion of proper surface preparation, material selection and specification.

Learning Objectives:

- Identify proper concrete mix and design.
- Discuss how to ensure against moisture problems.
- Review proper surface preparation.
- Evaluate commonly used coating types.
- Discuss material (system) selection guidelines.

Presenter Qualifications: All Tnemec continuing education presenters have been trained on AIA/CES and NCEES RCEPP guidelines. In addition, they receive continuous in-depth field training and are considered industry experts.
